

# John Mulcahy

## Summary:

I am currently studying Computer Science in Griffith College Cork, my previous experience as a production operator in the automobile electronics industry has helped me develop an ability to be observant of detail and quality while working in a time efficient manner. I am now leveraging these skills into the I.T industry.

## Employment

---

### **Kostal Automotive Factory, General Operator**

Abbeyfeale, Co. Limerick | August 2013 – September 2016

- Worked as part of a team on the production of circuit boards for hybrid electric cars.
- Removed the risk of assembly errors being made on the manual assembly line by articulating an idea to separate similar materials used in production.
- Became proficient in 4 different roles in Kostal from product assembly right through to testing.
- Developed skills to maintain the standard and quality of my work.

### **Sales Assistant and Service Technician**

Forestry and Garden Machinery shop, Newcastle west, Co. Limerick  
May 2011 September 2013 Part-time

- Worked efficiently at repairing and servicing garden machinery.
- Offered customer service and advice where applicable.
- Sales of products and services.
- Assembled new machinery to be sold.
- Bicycle servicing and repairs.

## Education

---
